Remington® Unveils Attached-Sabot Lead Slug

Madison, NC - For 2003, Remington proudly introduces the Express® BuckHammer™ Attached-Sabot Lead Slug. This new shotgun slug combines devastating knockdown power with the improved accuracy of an attached sabot-style projectile. When used in conjunction with a fully rifled barrel, the Remington Express BuckHammer slug delivers 3" or better groups at 100 yards with 13% more energy than any other lead sabot slug on the market. The Remington patented sabot slug system with the unique 1 1/4 ounce lead slug delivers outstanding accuracy, near 100% weight retention and controlled expansion to nearly 1 inch in diameter.

The Express BuckHammer joins a complete family of five different slug offerings from Remington.

- **Premier® Core-Lokt® Ultra** - The ultimate in jacketed, bonded sabot slugs for the most demanding applications.
- **Premier® Copper Solid™** - An all-copper high performance sabot slug.
- **Express® BuckHammer™** - A lead sabot slug that delivers devastating on game performance and extreme accuracy.
- **Sluggo® High Velocity** - For greater down range energy and flatter trajectory.
- **Sluggo®** - A traditional "Foster" style lead slug preferred by smoothbore shooters.

Offerings for 2003:

	Gauge	Shell Length	Wt. Slug	Muzzle Velocity
New	12 ga.	2 3/4"	1 1/4 oz.	1550 fps Muzzle Velocity
