The 350 Remington® Magnum Returns

Madison, NC – The 350 Remington Magnum was one of the first short action magnum cartridges available to hunters. Fans of the 350 Remington Magnum admired its ability to be chambered in a light-weight rifle capable of providing true magnum performance. New for 2003, the classic 350 Remington Magnum will be offered in Express® Core-Lokt® line featuring a 200 grain Pointed Soft Point bullet.

Remington® Core-Lokt bullets have long been known for their game stopping ability. The Core-Lokt Pointed Soft Point bullet features a jacket tapered for controlled 2x diameter expansion with the lead core "Lokt" in place for 80% weight retention, perfect for medium to large dangerous game.

In addition to the new Express Core-Lokt offering, Remington has unveiled the Model 673 Guide Rifle chambered in 350 Remington Magnum. This classic combination will surely peak the interest of big-game hunters seeking rock-solid performance, accuracy and reliability.
