## Remington<sup>®</sup> Introduces "All Weather" Version of the Model 7400"

Madison, NC – Remington's fast-handling, soft recoiling, autoloading centerfire rifle, the Model 7400, now delivers its halfmark accuracy in an all weather package – the Model 7400 Weathermaster<sup>1M</sup>.

The Model 7400 Weathermaster has a discable weather resistant black synthetic stock and fore-end and matter nickel planed receiver, barrel and magazine to provide protection from inclement conditions. The 23-net barrel with iron sights is ideal in any hunting situation. The receiver is drilled and tapped for acope mounts. For 2003, the Model 7400 Weathermaster will be chambered in two widely popular calibers - 30-06 and .270 Win.

Long a favorite of steer hunters, the Model 7400 autoloading centerfire rifle is designed for quick follow-up strots and list target acquisition due to the soft-recoiling, gas system. The Model 7400 gas system maintains uniform bolt velocities to improve reliability and long-term durability. The quick reflects, four round magazine is designed to further enhance the Model 7400 rifles sersatility.

Whatever the hunting conditions, Remington delivers the answer with the accurate, fast-handling Model 7400 Westbermuster. Available at a suggested retail of S624.
