## The Remington® Slugger® Goes High-Velocity

Madison, NC = New for 2003, the Remington Slugger rifled shotgun slug is now offered in a High-Velocity <sup>7</sup>/<sub>8</sub> ounce version boasting a 1800 fps muzzle velocity. The Remington Slugger High-Velocity offers smooth bors shooters a lead slug exhibiting flatter trajectory and increased down range energy for hard-hitling deer dropping performance.

The Remington Slugger rifled shotgon store lies been the standard for smooth bore hunters for decades. Its legendary capatilities of birresting big game at close to medium ranges without the aid of a rifled barrel has made its Remington Slugger a common name around hunting camp. The slightly oversized diameter of the lend slug creates a perfect seal against the shotgun barrel wall, resulting in more consistent short-to-shot accuracy and velocity.

Remington offers a complete nighty of shotgun slugs that are guaranteed to meet the needs of each and every shotguar manter. In addition to the Remington Slugger High Velocity, Remington offers the following.

- Premier\* Corest out: Ultra = The ultimate in jacketed, bonded sabot slugs for the most demanding applications.
- Premier\* Copper Solid\*\* An alf-copper high performance sabot slug.
- Express\* BuckHammer." A more traditional lead slug designed to perform extremely well in fully rifled barrels.
- Slugger\* "A transformal "Foster" style lead slug preferred by smoothbore shooters.

Offerings for 2003:

\*Stagger High Velocity Rifled Shotgun Slugs

Cauge	Shell Length	Wt. Sing	Muzzie Velocity
