

The program is set forth in detail on Remington's website at www.remington.com. In addition, the attached notice describing the Safety Modification Program will appear in the April, May, and June issues of such prominent outdoor publications as *Field & Stream*, *Outdoor Life*, *Bugle*, *American Rifleman* and *Sports Afield*. Remington has also established a special toll-free number for inquiries, at 877-387-6691.

The first Remington rifle was manufactured more than 185 years ago, and throughout its long history, Remington has taken great care in designing and manufacturing high-quality firearms and ammunition, and in educating hunters and other sport enthusiasts in the safe use of those products. In this regard, we urge our customers to consult our website at www.remington.com, and to contact Remington if they have any questions about the safe use of any Remington product.
