

1998 New Products**Mayfield****M/597 Custom Target & Magnum
Custom Target - NPP-86****Golemboski**

Discussion: Engineering to report on barrel process. Process is complete and is progressing forward.

10 of each SKU (6552 & 6554 respectively) should be built into inventory.

	<u>6552</u>	<u>6554</u>
Ready for shipment:	3	12
Ready for test shoot/targeting	12	4
WIP in assembly area	5	
Reworking (John Stairs)		2

Conclusions: Marketing will drop "custom" from description and reposition the guns in 2000.

Action items: Address in 2000 price list and catalog.

Person responsible:

Deadline:

Notify sales of availability.

Kohler

9/1/99

**1999 Special Non-Catalog
Opportunities****Mayfield****M/597 .22WMR HB****Golemboski**

Discussion: Engineering to provide sample of "heavy sporter" barrel, with larger diameter, for review.

Conclusions: The customer, Lew Horton, does have an interest for this product. The gun will feature a brown laminated stock with a non-tapered, carbon steel heavy BBL in .22WMR. Looking at producing 250 in Sept. and 250 in Nov.

Action items:

Person responsible:

Deadline:

- need to find out if customer will take shipment in Dec. and accept price of \$286 for a minimum of 500 units
- Ensure production schedule can support a shipment in December
- Engineering to produce a "true HVY BBL" with .825 diam. On a brown laminate gun and provide estimate at next PTM.
