Subject: M/700 Titanium Receivers

Jay and Tim,
Attached is a brief proposal soliciting your interest in pursuing a M/700 Titanium receiver. We have identified a vendor which can broach the interior of the receiver which I believe puts the idea into a reasonable cost arena by reducing/eliminating a good bit of the difficult finish machine operations.

Please take a look and let me know if either/both of you have any interest in pursuing the idea. . . .
Thanks,
Dale
