Subject: RE: Quick Status

- * 710- Starting back on this today, we are at clean & inspect stage after shoulder function, going into accuracy next. I'll ssent you some data.
- * I'll contact John Trull about the 597 rifles.
- * 597 Non-ISS Safety Button- all housings are in and we are starting on that today.
- * 504- finished all extended testing yesterday.

>Phillip,

> Do me a favor a put together a quick status on 710 Magnum testing. Nothing elaborate, what's done and a brief on results to date for function, meas., etc.. Also a reminder to send Trull a note requesting all 10 597 LR's for the audit be sent to E-town. Tell him to not worry about cleaning his, we'll do that. And finally, have we received all Non-ISS trigger assemblies back from Mayfield? If we have what's the outlook for testing these?

> Just want to be in a position to answer questions before they start. Last question, where are we on 504 DAT Drop testing?

>
>I'll let you know if and when we have a conf. call with the BATF. Would like you there.
