M. Golemboski

Dear Rich:

Please find enclosed drawings 1E & 2E-300327, titled Receiver Insert. The drawings represent recent datum/dimensioning changes requested by manufacturing and a design change to improve the cosmetic relationship between the receiver insert and the safety arm. Text has also been added to the top of the right side tang surface to indicate safety position. Please review the alterations and submit a quote for tool modifications. Please submit the quote to Ray Suarez, Ilium purchasing department. An electronic file of the model surfaces can be transmitted upon your request.

Sincerely,

Michael D. Keapey
Staff Engineer
