Subject: FW: 710 SHORT ACTION AND YOUTH

We recently received request for part numbers for the 710 short action and youth parts. Last month you should have received the attached parts lists which have all of the new parts and part numbers associated with these models. If you have any questions about part numbers you can reference these parts lists. If you still have any questions please let me know. The youth stock drawing is done and we are working on the youth pad drawings. I will forward both to Gerald today.
