Our shooters may be less sensitive to the "hard to cam" because of repetitiveness and their more rigorous method of cam over. We can explore this further with the samples that you are sending to us. Also, if you could send back a few of the spent casings with the scratches left from the burr, } would appreciate it.

Regards,

Derek Boyles Senior Quality Engineer Remington Arms Company 22 Rifle Trail, P.O. Box 99 Hickory, KY 42051 Phone: 270-856-4227 Fax: 270-856-3233
