Subject: 710 SHORT ACTION

Attached are PDF files for the new 710 short action magazine box and the receiver insert designed for the Model 700 fire control. We have not selected a material for the magazine spacer as of yet. I am waiting for Todd Cook to return to help with that process. Drawings that have changed since I was there to discuss the design have been designated as Revision A. All brand new drawings have no revision. As always, call if you have questions.
