**Subject:** RE: M710 Parts List

Vince,

Please add one more part to your list of things to investigate - the SAP BOM doesn't include the safety pivot pin (F300932) as part of the receiver assembly insert complete (F300401) or the complete gun (27434). Are they using another part for this (300464)? I can't tell. I'm sooooo confused.....

Thanks,

Jim

Vince,

Can you check the sear too? SAP shows Jim's sear 15666 being used without alteration while the P/L shows a different part numbers.

Thanks,

Jim

Vince,

I'm comparing the current 710 trigger assembly (actually, receiver insert assembly complete) versus the

Subject to Protective Order - Williams v. Remington

ETE00000400

new SPL for Ilion (don't ask why) and I noticed that the 710 trigger in the P/L is listed as 300483 with 300482 as the blank (p. 2 of P/L), but SAP calls out 109835. Could you please check this out (and fix the P/L to reflect reality, if necessary)?

Thanks!

Jim Ronkainen
