Subject: 710 Extruded Receiver DAT Exit Letter-20Oct04

Attached is the official DAT Exit letter for the M/710 Extruded Receiver design which recommends proceeding with a T&P build. Please note that a number of processing concerns not related to the extruded receiver were listed so that Manufacturing could determine the root causes and take appropriate corrective action if required.

As always please contact me if you have questions or want to discuss further.

Regards,

Scott Franz
