Danny - we need to do either a RGA or a transfer - not both - Which one would you rather do? Do transfer orders credit the g/l account they were originally charged to?

Phillip,

We need these guns back at your earliest convenience.

I believe that return procedure would be:

At E-Town

Enter a transfer to Mayfield SAP location with no SAP transaction

Give Customer service necessary to prepare a RGA for the total quantity of guns returned.

At Corporate

Process the RGA to Mayfield

At Mayfield

Receive the transfer in DMS (updates DMS inventory)

Process the RGA (updates SAP inventory)

This being the process, the 62 504 returned were not handled properly in SAP (DMS is fine) and we have overpaid excise taxes. To correct, we need an RGA for 62 504 to correct our SAP inventory.

If you have any questions or comments (or know a better way), please let me know.

Thanks,

Danny Chamblee

Not sure what the test involves, I will do everything possible to have returnable and sellable guns at the end of the test. Also I have some gun right now that could be returned. I have 7- 30.06 rifles that were sent for the first safety detent test that was never done and I have 6- 30.06 & 6- 270 rifles that were not shot but were drop tested (one with a stripped receiver take-down screw hole).

Phillip

Phillip,

Charge account 8230150 Cost Center 28200. When can we expect the guns back? Also can we expect these to be guns that can be sold to customers (i.e. low # of round with no destructive tests)? We are in a backorder inventory position with 710s.

If you need any additional information, please let me know.

Thanks,

Danny Chamblee
