Subject: Draft of EET test request for M710 CA DOJ bolt plug

Matt,

Please review and let me know if you'd like to change anything on this test. Remember - this is only EET - once MIM parts are received we will run this test again with a larger sample for DAT.

Scott,

Please review and let me know if you'd like to modify any. Particularly step 7: maybe it makes sense to scale back step 7 to only a couple drop orientations. Also, please note the requested completion date and advise the chance of success of meeting this date.

Jim,

Please assign the TLW # now and I will forward any updates to you.

Thanks to all,
Brad
