315 WEST RING ROAD
ELIZABETHTOWN, KY 42701

- Measure .30-06 caliber
- Dimension equals .308/.309

Data Required:

- Rifle serial numbers
- Measurements of each bore by serial number

TLW0300W - Twist Rate (.30-06)

Measure Twist Rate using standard procedures.

Method:

- Measure .30-06 caliber
- 1 turn in 10" \pm .25", RH

Data Required:

- Rifle serial numbers
- Measurements of each bore by serial number

TLW0300X - Magazine Capacity Test:

Fully loaded magazine boxes must be able to be inserted into the firearm with the bolt closed and in the locked position. For the Model 710 this means that a magazine loaded with 4 rounds should be able to be inserted into the rifle and latched properly when the bolt is fully closed and latched up.

Method:

- Check rifle for live ammunition
- With muzzle pointed in a safe direction, close the bolt and lock over an empty chamber
- Remove the magazine from the gun and load 4 dummy rounds into the magazine
