

Model 700 calls

1) Do you have the serial number to your firearm?

Look up serial #.... Was the firearm produced between July 1987 – Dec 1987?

IF YES.....

The trigger plate assembly should be replaced.

If TPA has already been replaced under the callback, there will be a punch mark on the left hand side of trigger (Follow directions below under "NO")

**If unsure of whether replacement has been done Send firearm to:
Remington Arms Co., Inc.
Arms Service / Dept TPA
14 Hoefler Ave
Ilion, NY 13357

IF NO....

- Have you experienced any problems or do you have any reason to be concerned that your firearm or safety is not functioning properly?
 - **Yes** Have firearm returned to address above.
- Do you clean your firearm after each use & complete regular maintenance as outlined in your owners manual.

No – We recommend that you do have service or inspected.

– Provide Remington RARC's locations or Ilion address.

****First & foremost it is essential that you are familiar with & follow the "10 Commandments of Firearm Safety"*****

• Are you familiar with these?

- IF "NO".....
 - Internet
 - Owners manual
 - Fax
 - Mail

1) Was the firearm produced prior to 1982?

- Bolt lock on firearms produced prior to 1982 Safety must be in the "off" or "fire" position in order to remove the round from the chamber. (**Not a defect**)
 - Be certain that you are following rule #1 Always keep the muzzle pointed in a safe direction
- Can the firearm be converted to new style? (can unload the chamber with the safety in the "ON" or "SAFE" position?)
 - YES: Send firearm to Ilion Arms Service (above)
