At 11/22/2000 03:51 PM we wrote - Sir/Madam, there should have been a supplement to your owners manual enclosed with you rifle. "To operate the safety mechanism, you will need to disengage the security system by inserting the key into the J slot. Be sure to push the key in as far as it will go. Once it is in place turn clockwise so that the indicator line on the key and the pointer on the safety mechanism lineup with the red dot on the trigger plate.
