Dear Mr. Larson,
This is response to your recent communication regarding the repair of your Remington firearm. We regret that you are experiencing problems with your firearm. Based on the information you have provided, we suggest that you send your firearm to our Ilion, NY facility.

Please follow these guidelines:

1. Record the serial number of your firearm before sending it to us.
2. Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box.
3. Remove all accessories from your firearm to prevent loss or damage.
4. Enclose a letter with the firearm detailing the model name or number of your firearm and serial number along with a full description of the problem. Be sure to include your full name and address (P.O. Box and Street Address), including zip code, daytime telephone number, and e-mail address.
5. Ship your firearm by either United Parcel Service (UPS) or Parcel Post (US Post Office). Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.

Ship to:

Remington Arms Company, Inc.
Attn: Arms Services Division/Repairs
14 Hoefler Avenue
Ilion, NY 13357

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

Dear Mr. Larson,
Our factory has received your rifle. They will send you paperwork on their findings and what work is done when they send it back to you.

A TV program informed me of a general problem with the Model 700 safety mechanism. I have one of these rifles.

1. Gun is a Model 700 BDL .308 Serial # 6306619
2. Gun discharged without trigger activation about 12 years ago, it was either on bolt closure or safety on/off. The round went into the ground, no injuries resulted. I hunted with the rifle many years before and many years after the incident without problems.
3. Gun was and is in near perfect condition, no rust on trigger mechanism.
4. After the accidental discharge, I brought gun to a gunsmith, who adjusted trigger mechanism, but now I don't really know if this fixed anything.
5. Please advise - The program said you are not responding to allegations on this matter, but you have a problem.

I would like a document stating firearm was repaired, and
should be safe from above stated problem, upon return.
Thank you
Mike
