Dear Mr. Rybarczyk,

We cannot give any recommendations on any alterations or modifications to the trigger assembly. This voids the warranty on the firearm.

I have a Remington 700 in 308 win. I wish to exchange the factory trigger for a Jewel trigger. What size pin punch do I need to remove the bolt stop pin and the sear pin? Since the trigger has it's own safety, I think I only have to make sure the bolt stop mechanism stays intact. Is there anything else I need to be aware of?  
thank you
