Dear Mr. Fernald,  
We apologize for the delay in response. Remington does not offer a 3 position safety on our firearms. All we offer is the current 2 position safety. Thank you for visiting Remington Country.

I have a Remington Model 700 30-06 purchased in 1980 that has the 2 position bolt lock feature. (safe/fire). Can I have the safety replaced with a 3 position safety? I need to know where to have this done. Also does Remington furnish replacement safety, or do I have to purchase it?

Thank you,

Richard Fernald
