Dear Dan,

Welcome to Remington Country and thank you for your inquiry. The Sportsman 78 was produced between 1974-89. If you could please provide a serial# and we would be able to give a date of manufacture. We will be glad to mail a owner's manual to you today.

Again, we thank you and appreciate your support of Remington products.

According to the serial# you are providing the Model 78 was produced in about 1986.

My son purchased a used Model 78 Sportsman 30-06 Bolt action rifle past week it appears in excellent condition and appears to have the Model 700 action.

I could not find any information in regards to this model Remington rifle. I was concerned in regards to the safety reminder for Remington rifles manufactured pre-82 etc. with the "Bolt Lock" feature. Could you tell me what year(s) this model was produced and if there may be a manual available still. Also are repair parts still avail if required? I do not have the serial number at this time but can provide if required. I myself have some Model 700 rifles, My Model 760 carbine (a true buck masher, Model 1100 and 870 shotguns, and Remington 22 rifles.) I also used the M40 Marine Corps 7.62 Sniper rifle in the Marine Corps, 1959-1981, (Viet Nam). A Great Rifle! still in in Our Marine Corps today!!

Thank you for any information you may be able to provide. If you do have a manual for this or any literature you can provide, My address is below.  
Sincerely

Dan Dickson USMC, Ret.

Thank you for your assistance and information, we would appreciate the manual

As requested in your reply, I obtained the Serial Number for my son's rifle.

It is B6795329, Model 78, Sportsman. 30-06 Sprg.

R/ Dan Dickson
