Dear Mr. Matson,

Thank you for your inquiry. There is not a recall on your rifle. There is a Voluntary Safety Modification on certain bolt action rifles. You can read more information regarding this program through the front page of our website or by clicking on the link below:

http://www.remington.com/safety_modification_program/remington_safety.htm

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you need a replacement copy of your Remington owners manual, or safety booklet, you can download or request a copy from the Support section of our web-site.

Owners manuals - <http://www.remington.com/whatsnew/readroom.htm>

Safety Booklet - <http://www.remington.com/pdfs/sftybklt.pdf>

You may also obtain a copy by calling toll free 1-800-243-9700, and pressing option 1.

On this evenings news I heard that there was a problem with the model 700 rifle. I believe that they said that Remington was making repairs to guns produced before 1982.

Is the above gun included in the recall?

Thank you.
