Dear Sir/Madam,

Thank you for your kind words and support. We appreciate your comments and hope you will spread your support for our company and firearm safety to your friends and family.

For nearly 40 years, the Remington Model 700 bolt-action rifle has been one of America's premier hunting rifles.

Over 4 million model 700 of these rifles have been sold to hunters, target shooters and law enforcement agencies across the United States. When used following the rules of safe gun handling, including proper maintenance, and not inappropriately altered, the Remington model 700 is a safe rifle.

We suggest you go to "the safety center" on our website at www.remington.com to find out more information regarding our voluntary Safety Modification program.
