Dear Mr. Combast,

Thank you for your inquiry. We would need to know the serial number of your firearm in order to properly answer your inquiry. We do have a Safety Modification Program for certain model bolt action rifles. This is a voluntary program, this is not a recall. However the Model Seven is not included in this program. You can find more information regarding this through the front page of our website or through the link below:

[http://www.remington.com/safety\\_modification\\_program/remington\\_safety.htm](http://www.remington.com/safety_modification_program/remington_safety.htm)

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you need a replacement copy of your Remington owners manual, or safety booklet, you can download or request a copy from the Support section of our web-site.

Owners manuals - <http://www.remington.com/whatsnew/readroom.htm>

Safety Booklet - <http://www.remington.com/pdfs/sftybklt.pdf>

You may also obtain a copy by calling toll free 1-800-243-9700, and pressing option 1.
