Response (Laura) 3/11/2002 2:13:50 PM
Dear Mr. Hayford,
Thank you for your inquiry and your support. We have a Safety Modification
Program on certain model bolt action rifles. This is a voluntary program,
it is not a recall. This is designed to remind people of the existence of
the bolt-lock feature and to offer customers the opportunity to modernize

You can read more information regarding our firearms and our Safety Modification program through the front page of our website or the link below:

http://www.remington.com/safety_modification_program/remington_safety.htm

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." http://www.remington.com/support/10comm.htm It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whather you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you have any questions, please feel free to contact us at 1-800-243-9700 or 1-877-387-6691.

Customer 3/10/2002 7:02:05 PM I would like to request a catolog to show my customers available products from your company.

Mark's Gun Service 24297 Lincoln Hwy Delphos, OH 45833

In regards to the safety recall on bolt action rifles, what is the years under question?

I'm sorry that the safety recall came about the way it did. People should always treat a gun like its loaded and check to see if it is loaded.

Thank you. Mark Hayford
