Dear Mr. Teetes, Thank you for your inquiry. We have a Safety Modification  
Program on certain model bolt action rifles. This is a voluntary program,  
it is not a recall. This is designed to remind people of the existence of  
the bolt-lock feature and to offer customers the opportunity to modernize  
their products.

You can read more information regarding our firearms and our Safety  
Modification program through the front page of our website or the link  
below:

[http://www.remington.com/safety\\_modification\\_program/remington\\_safety.htm](http://www.remington.com/safety_modification_program/remington_safety.htm)

The safe use and performance of your firearm depends on correct assembly  
and routine maintenance, as well as adherence to the "10 Commandments of  
Firearm Safety." <http://www.remington.com/support/10comm.htm> It is  
critical that you familiarize yourself with the information in both the  
owners manual and safety booklet. Whether you are a veteran shooter with a  
collection of Remington firearms, or a first time shooter, take the time  
to review this important literature and be certain that you are practicing  
firearm safety!

If you have any questions, please feel free to contact us at  
1-800-243-9700 or 1-877-387-6691.
