Dear Mr. Young,

If you will contact our Parts Department at 1-877-387-6691 or
1-800-243-9700, we will be happy to provide you more details regarding the
Safety Modification Program. Most people ship firearms to us via UPS.
You will need to determine if and how much you wish to insure your
firearm. If you will provide us with your mailing address, we will send
you a copy of the original owner's manual. Please give us a call and we
will discuss more details of this modification with you.

Customer (michael young)
