Dear Mr. Kosler,

Thank you for contacting Remington Country. We suggest removing all accessories, including the scope and mounts before shipping. If there is a Remington Authorized Repair Center near you, you may not have to ship the firearm and remove the scope. You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

I am going to send it in for the safety modification. Do I need to remove the scope and mount prior to shipment? would I need to do the same, if I sent it through an authorized dealer?
