Welcome to Remington Country and thank you for your inquiry. According to the serial# you provided your Model 700 was produced in about in 1973 with the rate of twist 1 in 14.

We are offering the modification on all pre-82 bolt lock firearms.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

1. What year was my Remington 700 (22-250 cal.) manufactured in?
2. What is the twist rate for this rifle?
3. Does this rifle require the safety change for the bolt/safety (I can not unload the rifle with the safety on).
