Dear Alan,
Thank you for your inquiry. If your firearms still has the original
Remington trigger, we will remove the bolt lock feature from your rifle.

Customer (Alan Kyle) 5/7/2002 2:05:04 PM I am preparing to send the model 721 shown above for the modification you have suggested. However this gun was re-chambered for 308 Winchester some years back, my question will this have any effect on the recomenede modifications you are requiring? I would like to know before I proceed shipping. Thank you.
