Dear Mr. Bibb,

Thank you for taking advantage of our safety Modification Program. If you send your firearm to a Remington Authorized Repair Center, you will need to check with that individual center regarding their turn around time. Our factory turn around time on the Safety Modification is approximately 2 weeks. You can find the complete instructions regarding this program through the front page of our website.

I believe my rifle falls under the safety modification. How long will it take to replace the trigger assembly and returned?
