Dear Mr. Furman,  
Thank you for your inquiry. We are not tied in with the repair centers via email. You would need to directly contact them yourself. UPS or Fed Ex both provide excellent services.

Safety Message/ NRA "American Rifleman" Concerning the 721 and Safety Modification Program.  
Your repair form requests that I contact the Repair Center before shipping rifle for the safety repair. Will this e-mail suffice?  
Also method of shipment, carrier, UPS or Fed-X, which is preferred?  
What is the recommended insurance value I should use?  
Thank you: Robert Furman
