Dear Mr. Burnett,  
Thank you for your inquiry. To determine whether your Model 700 rifle has a bolt-lock mechanism, either:

Call Remington toll-free at (877)387-6691 and a service representative will help you determine if your firearm has a bolt-lock mechanism, or

Take your Model 700 to a Remington Authorized Repair Center and a qualified gunsmith will examine your firearm and determine whether it has a bolt-lock mechanism.

I was looking in my FIELD&STREAM magazine and saw (IMPORTANT SAFETY MESSAGE) on page 57 stating that my bolt action centerfire rifle might have a feature known (bolt lock) I was given this rifle in 1983 but do not know what year my rifle was made. please tell me what year my rifle was made and if I need to take my rifle in to be fixed. thank you.
