Dear Mr. Anderson,
Thank you for your inquiry and enthusiasm for safety. There is not a part
that is added to the firearms for the safety modification program. It is
a modification that we recommend only be performed by our Remington
Authorized Repair Centers or our factory gunsmiths.

You can locate your nearest repair center by Visiting the Repair Information Center in our Support Section and selecting your model and state:

Dear Remington,
Yes, I want my rifles to be safer. In reference to your "Important
Safety Message" concerning pre 1982 model 700 rifles. I have five of these
rifles. My question is can I please just get the part to correct the
issue? Because its going to cost me 20.00 per weapon x five rifles =
100.00 plus the expence and hassle of shipping five rifles.It adds up to
almost the cost of half of a new Remington riles I just need the part. As
aways I am responsible for my weapons. I have always insured the muzzel
was pointing in a safe direction prior to unloading.Anyway, I sure hope I
can just get the parts and as always I am responsible.
