Dear Mr. Pine,  
To determine whether your Model 700 rifle has a bolt-lock mechanism, either:

Call Remington toll-free at (877)387-6691 and a service representative will help you determine if your firearm has a bolt-lock mechanism, or

Take your Model 700 rifle to a Remington Authorized Repair Center and a qualified gunsmith will examine your firearm and determine whether it has a bolt-lock mechanism.

I have just read the recall notice on the safety bolt lock on remington 700's, prior to 1982, and am wondering if my remington falls in this category, if so I have a friend that is a firearms dealer that could return my firearm if need be...thank you David Pine
