Dear Mr. Flamisch,  
Welcome to Remington Country. Based on the information you provided, your  
firearm was manufactured in or around 1976.  
Since this is before 1982, please visit our safety modification program  
message at  
[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)  
The safe use and performance of your firearm depends on correct assembly  
and routine maintenance, as well as adherence to the "10 Commandments of  
Firearm Safety." <http://www.remington.com/support/10comm.htm> It is  
critical that you familiarize yourself with the information in both the  
owners manual and safety booklet. Whether you are a veteran shooter with  
a collection of Remington firearms, or a first time shooter, take the time  
to review this important literature and be certain that you are practicing  
firearm safety!

If you need a replacement copy of your Remington owners manual, or safety  
booklet, you can download or request a copy from the support section of  
our web-site.
