Dear Mr. Ashurst,
Thank you for your inquiry. We do not offer a 3 position safety on our
firearms. We have a Safety Modification Program on certain model bolt
action rifles. This is a voluntary program, it is not a recall. This is
designed to remind people of the existence of the bolt-lock feature and to
offer customers the opportunity to modernize their products. If you have
a bolt lock safety, we strongly recommend that you take advantage of this
offer.

You can read more information regarding our firearms and our Safety
Modification program through the front page of our website or the link
below:

http://www.remington.com/safety_modification_program/remington_safety.htm

The safe use and performance of your firearm depends on correct assembly
and routine maintenance, as well as adherence to the "10 Commandments of
Firearm Safety." <http://www.remington.com/support/10comm.htm> It is
critical that you familiarize yourself with the information in both the
owners manual and safety booklet. Whether you are a veteran shooter with a
collection of Remington firearms, or a first time shooter, take the time
to review this important literature and be certain that you are practicing
firearm safety!

If you have any questions, please feel free to contact us at
1-800-243-9700 or 1-877-387-6691.
