Dear Tami,

Thank you for your inquiry. We no longer offer any parts for this model. The Model 721 was manufactured from 1948-1961. We want to make you aware of a Safety Modification program that we are currently having on these firearms. Complete details regarding this program can be found through the front page of our website or through the link below:

[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)

Due to the many variables involved with valuation, we would encourage you to refer to the many publications that are available on the subject of gun values or have it appraised by a collector. Many of these books are available through public libraries or local bookstores. For your convenience we have provided a listing of the more popular books:

Note: Remington does not accept responsibility for the goods or services provided by these sources.

I have a Remington model 270 that was made in September of 1950. I'm trying to find out the value of it, history of that particular gun if possible, and where I can buy a new stock for it. Thanks!
