Dear Mr. Gerdes,
Refinishing a stock will generally run approximately \$120. This process takes a few weeks. The average repair time is at least 4-6 weeks.

Customer (ralph a. gerdes) 8/20/2002 11:33:09 AM
Thanks for the info. Can you advise on the cost for refinishing the stock and, if at all possible, is there a chance it could be completed prior to October. I would certainly be willing to pay additional "express/priority" charges for a quicker return. Thanks. R. A. Gerdes
