Dear Mr. Swanson,  
Thank you for your inquiry. We are having a Safety Modification Program on certain bolt action rifles including Pre 82 Model 700 rifles. You can find all of the information regarding this program through the front page of our website or through the link below:

[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)

This is a duplicate but completed question. My computer sent the other while I was still typing for an unknown reason.

Q. I purchased the above rifle, NIB, a kit gun and in the box was an envelope with a notice apparently from Remington about a "trigger program". I am a gunsmith and vaguely recall something about the 700 triggers some years ago, but not specifically the details. Is there a problem with the trigger group that was being recalled for replacement? If not, what is the reference to the "trigger program" on the notice, and should the document be sent back to you? There are two copies and both are blank save the "sticker" in the upper right hand corner.  
Thank you for your assistance.  
Larry Swanson
