Dear Mr. Eisman,  
We understand your concern however we receive shipments daily from a number of carriers without any damage. We recommend that only our Remington Authorized Repair Centers or factory perform this alteration.

We suggest taking or sending your firearm to a Remington Authorized Repair Center or our factory for evaluation.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

I have 2 pre-1982 Model 700 rifles with the bolt lock mechanism. I would like to participate in the Safety Modification Program, but shipping them to you is out of the question. I don't trust any of the carriers to transport my rifles without losing or damaging them. They are my oldest and most treasured and trusted possessions. It would be like putting a member of my family in a box and shipping them across the country. Could the parts/instructions be sent to me to be installed by me or a local gunsmith? Thanks for any information you can provide.  
Bill Eisman
