Dear Mr. Van Leer,

Thank you for your inquiry. There is not a recall on the Model 721. However there is a safety modification program on these firearms. You can read all of the details regarding this program through the front page of our website or through the link below:

[http://www.remington.com/Safety\\_Modification\\_Program/721\\_722.htm](http://www.remington.com/Safety_Modification_Program/721_722.htm)

I have a model 721 bolt action 30-06 from 1958-1960. I've never had any problems with it, but my father thought that he had heard about a recall on the gun. apparently some were going off when the gun was jarred? Was there ever a recall on this model? Better safe than sorry.

Thanks,

Tim van Leer
