Dear Mr. Martin,

Thank you for your kind words and support! It is always refreshing to hear how our products affect our customers lives and exceed their expectations. Of course your shooting ability does play a big part in the success of your hunts. We appreciate your feedback and wish you a safe and successful season!!

I don't have a question, but I would like to give a comment and don't know where to go to leave it. Could somebody send this on to a person in this field?

I have bought a Model Seven .260 a few years back.

I chose this gun because of its compact size since I do a lot of tree stand hunting. I have never been able to hold a tight pattern with any of the guns that I have owned in the past. I am within about 1 inch at 200 yards with this gun. I put a BSA Platinum (3.5x10x30) scope on it, I shoot Remington Premier 120 gr. nosler ballistic tip bullets, and could not be happier with the results that I have gotten with this gun. I have not missed one deer and only had to go about 20 yards for the furthest tracking. Most of them drop right in their tracks, even the one I got yesterday (I even shot this one left handed, I am a right handed shooter). I don't mean to sound like I am bragging, but I have never felt so comfortable with a gun as I do with this Model Seven. I just wanted to drop you a line and let you know how impressed I am with your product and let you know that I am looking forward to your future products.

Keep up the great work.

Jeffery A. Martin
