Dear Mr. Logan,

Thank you for your inquiry. We have a Safety Modification Program on certain model bolt action rifles. This is a voluntary program, it is not a recall. This is designed to remind people of the existence of the bolt-lock feature and to offer customers the opportunity to modernize their products. If you have a bolt lock safety, we strongly recommend that you take advantage of this offer.

You can read more information regarding our firearms and our Safety Modification program through the front page of our website or the link below:

[http://www.remington.com/safety\\_modification\\_program/remington\\_safety.htm](http://www.remington.com/safety_modification_program/remington_safety.htm)

The safe use and performance of your firearm depends on correct assembly and routine maintenance, as well as adherence to the "10 Commandments of Firearm Safety." <http://www.remington.com/support/10comm.htm> It is critical that you familiarize yourself with the information in both the owners manual and safety booklet. Whether you are a veteran shooter with a collection of Remington firearms, or a first time shooter, take the time to review this important literature and be certain that you are practicing firearm safety!

If you have any questions, please feel free to contact us at 1-800-243-9700 or 1-877-387-6691.

I HAVE A MODEL 700 ADL IN .270 WIN. THE ONLY WAY TO UNLOAD THE MAGAZINE IS TO CYCLE THE SHELLS THRU. THE BOLT WILL ONLY OPEN WITH THE SAFETY IN THE FIRING POSITION. I UNDERSTAND THAT THIS HAS BEEN CORRECTED SO THAT IT CAN BE DONE WITH THE SAFETY ON. I ALSO HAVE A MODEL 700 BDL. IF THIS IS TRUE HOW DO I GO ABOUT GETTING THE REPAIRS MADE SO THAT THE GUN DOESN'T HAVE TO BE IN THE FIRE POSITION? THANKS FOR YOUR HELP!!!!
