Thank you for your inquiry. There is not a recall on the Model 700.
However, we are offering a safety modification program for the 700. I
have provided a link below that will give you more information on this
program.

http://www.remington.com/safety_modification_program/remington_safety.htm

If you have any further questions, please contact us at 1-800-243-9700,
Monday through Friday, 9 a.m. to 5 p.m EST. Thank you for visiting
Remington Country!

My grandfather owns two Model 700 7mm Rem. Mag.s but didn't know how
to contact you. We had heard that there was a recall on this gun
(something to do with the safety?). Over the course of the last three
years his gun has gone off inside of a cabin stand twice. Luckily no one
was injured either time. He didn't think he had touched the trigger but
admitted he couldn't be positive. One of the times the gun went off as he
put the safety to fire position and busted his thumb really bad. I was
curious if there was a recall on any part of this gun and if not should we
bring the gun in to be checked out anyway?

Thank you for your time.

Sincerely,
John D. Maurin, III
