Dear Mr. Hitchcock,

Thank you for contacting Remington Country. If a firearm has any history of discharging while the safety is on, we suggest that the firearm be sent to our factory. We will be glad to check your firearm to see if it has been involved in a recall at any time if you will forward the serial number.

Please read the safety information at the following site:

[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)

I just purchased a M700 ADL and have heard that there might be a problem with the gun misfiring while safty is on. Is there any merit to this-have there been any recalls on the M700? Thanks for your time-will look for response. Anders, Tucson, AZ.
