Dear Mr. Paige:

Thank you for your inquiry. According to the information you provided your firearm was produced in or about 1972. If your firearm has the hinged floor plate or a detachable magazine it is the BDL. If it has a blind magazine then it is an ADL.

We are offering a Safety Modification Program on our bolt-action firearms made before 1982. Your firearm would qualify for the modification. Please click below for more information:
