Dear Mr. Jerman,
Thank you for contacting Remington Country. Your Model 700 was manufactured in 1969. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

I recently purchased the model 700 .300 win/mag. I am curious as to how old the gun is and if the safety is one of those that needs to be eplaced. The gun was in a family and as far as is known it was never used. the gun is in mint condition, however I recall some model 700s had a safety problem. Can you advise me?
